
Crystal Reports No Export Dll Found

July 27, 2010 - Find answers to crystal report 8.5, unable to export the report to Word or MS-Excel format when clicking on the "Export" button. Problem with crystal report export to Word or Excel. When clicking on the Export button, the file to export cannot be found and then an error occurs stating that the file is missing. To solve this problem, open Excel and create a new document. After that, click on the "Office" button and select "Save As". In the "File type" line, specify the value "Word Document". After that, click on the "Save" button. Next, in the "File name" field, enter the name of the document.
