SonyEricsson Z310i Review (Z310i - Sony Ericsson) - EzHelpSearch. With the SonyEricsson Z310i, Samsung has taken a good step into the mobile phone market.Q: how to update the entity using nested hibernate query? I've 2 entities User, Profile. One User can have multiple Profiles (one to many relationship). And i'm using the following query to retrieve the User and then retrieve the corresponding user Profile(UserProfile): query = getHibernateSession().createQuery("from User u, Profile p where p.user\_id = u.id"); Here I'm getting the User and the UserProfile associated with it. Now I want to update the User with the UserProfile values from the query. What should i do? A: As per the hibernate query, you can simply update your object using the entity name itself with the following query: updateUser(User user) You don't need to query twice for the same object. HTH, Gautam. Selective gemcitabine/cisplatin in adjuvant therapy in non-small cell lung cancer patients: 9-year follow-up. Cisplatin-based polychemotherapy has been the standard of care for over a decade for postoperative consolidation in patients with completely resected stage IB-IIIA non-small cell lung cancer (NSCLC). The efficacy of adjuvant cisplatin-based polychemotherapy has not been proven for stage IIIA disease. We reviewed our experience at Memorial Sloan Kettering Cancer Center with adjuvant chemotherapy for completely resected NSCLC and a total of 121 patients underwent curative surgery, of whom 97 patients received adjuvant chemotherapy. From October 1999 to May 2002, 50 patients with completely resected stage IB-IIIA NSCLC were treated with adjuvant gemcitabine/cisplatin. We report the results of the follow-up of the 97 patients who received adjuvant cisplatin-based polychemotherapy. The median age was 63 years (range, 37-81 years), and the median follow-up period was 29 months (range, 6-106 months). The adjuvant chemotherapy regimen was gemcitabine/cisplatin: initially the gemcitabine was given at 0cc13bf012
