Pixel Font Converter might be an unassuming application, but it has been built in a way that makes it quite a handy piece of software. It can be used to transform any image into a pixel font, of course, the steps to be taken are quite simple. All one has to do is click a couple of buttons, and the conversion process is as complete as it should be. It is most likely the fact that the user interface is so basic that restricts the use of this software, since it is something that can be used by anyone, even those who have never heard of this particular, niche tool before. It is highly likely that the possible use of this program will be restricted to those who have created a few pixel font tile sets. The objectives are to establish the nature of the signal (s) derived from the chemoattractant for the motility of sea urchin eggs. The effect of the various potential signaling components on the transduction of this signal will be examined. The primary compound which is implicated will be stimulated by known chemoattractant species and the nature of a corresponding chemoattractant receptor will be examined. Factors which regulate the recruitment of sperm to the egg will be studied by incubating gonads in ³H- labelled amino acids, and monitoring the distribution of the radiolabelled material during both fertilization and chemoattractant stimulation. Events which occur in the egg at fertilization will be examined. Chemotaxis behavior of sea urchin eggs in three dimensional microdrops will be analyzed. The chemotaxis of the egg towards both chemoattractant and kallikrein will be followed. Experiments will be done to delineate the nature of the chemotaxis which appears during chemoattractant stimulation. Preheat oven to 450° F. In a medium bowl, beat together 1/2 cup softened butter and 3/4 cup confectioners sugar until fluffy. Add in 1 cup white chocolate chips, 1/2 teaspoon vanilla extract and pinch of salt. On a piece of parchment, or on an aluminum foil-lined baking sheet, spread butter mixture into a 9-inch pie pan. Set aside. In a medium bowl, whisk together the 5 tablespoons cocoa powder and the remaining 1/2 cup butter until combined. In a small bowl, whisk together the confectioners sugar, milk, and vinegar until smooth, then slowly whisk in the cocoa mixture. Add in the 1 cup white chocolate
