Please use English characters only. i have just used it to torrent the exe and then to start the torrent and viola
it is already in the downloads folder and i then wot to close the torrent but only it says it is still downloading?
Windows would have to open the torrent file and then tell you how to open the file. Here are the instructions
from Microsoft on torrent opening from the TorrentShark website: 1. Open BitTorrent program.2.Click on File
menu and then select "Open File".3.Click on the down arrow next to the Open tab on the Windows File Explorer.
4.Click on the Choose File button.5.Choose the file with.torrent extension. First of all check if the computer
has the legit EA-TORRENT from EA customer service. If not, contact EA customer service. Leave no doubt, you
will be punished. But if the computer has the EA-TORRENT from EA customer service, try to update the game to
the latest version! then download FileLocator Pro version: FileLocator Pro 5.0.1.0 Patch File Full 1. Run the
installer from the file you have downloaded 2. Follow the installation wizard and install. 3. When the wizard
is done, run FileLocator Pro 4. Enter your serial number from the Terms of Use document in FileLocator Pro
and create a new account. 5. Enter a new password and click on "Start Download" 6. When all files are
transferred, follow the instructions of the installation wizard and after that, run FileLocator Pro again. 7.
